

MASTER PLAN PHASE 1

Our first phase will consist of low-rise apartment buildings with contemporary open-plan two, three and four bedroom apartments and penthouses. Each collection of apartments is designed by the same architect to create a sense of continuity throughout the development and will have their own swimming pools, wellness and green areas. BroadwayMalyan have won over 240 awards since their formation in 1967 and pay special attention to follow a modern holistic wellness approach that focuses on prevention versus cure with buildings designed to bring people closer to nature.
