

DESIGNED FOR BETTER LIVING

This luxury development of 18 design-led sustainable villas is situated in the exceptional location of Real de La Quinta, where the views towards Gibraltar and Africa are arguably among the best in the world.

The setting is unique, with Marbella's iconic La Concha mountain on one side and the exclusive La Zagaleta Country Club & Golf estate on the other, bordering a UNESCO biosphere reserve and just a 15-minute drive from Marbella.

Please note that the present promotional presentation constitutes exclusively an example of design style, not the final design of the product, which may differ from one villa to another, and consequently has no contractual force and should not be offered as such.

Voted World's Best Residential Development

Up against more than 500 other developments from every corner of the globe this sustainable luxury development won the top award – Best Residential Development in the World – at the 28th International Property Awards.

Judging focuses on design, quality, service, innovation, originality, and commitment to sustainability. The judging panel is chaired by Lord Caithness, Lord Best and Lord Waverley, members of the House of Lords in the UK Parliament.

THE CONCEPT

The concept behind this development is in its difference.

This development is different from any other development built in Southern Europe, and all of the 18 villas, as well as the furniture and fittings in them, are different from each other.

The commonality they share, aside from the marvellous views, is that all are of the highest standard of construction and design and all display a level of innovation and creativity rarely found in residential developments.

THE CONCEPT

18 individually designed villas with 3 or 4 ensuite bedrooms

- Outstanding views over a lake, golf course and mountains, the Spanish coastline to Gibraltar and Africa beyond
- Private, gated community within the exclusive Real de La Quinta
- Windows disappear inside walls: lounge and terrace merge seamlessly
- All villas include a multi-use basement that can be customised to requirements
- All villas are offered with the option of purchasing the designer furniture, fittings and decorations as seen
- Generous, individual plots with uninterrupted sea views and complete privacy.

These design-led homes will be quite unlike anything that has gone before.

Individually Designed

The interiors of all 18 villas have been designed individually. Each villa is unique. You can simply take your pick of the interior style that suits you best. Some villas are more conservative in colour choice, others are bolder. All furniture is either carefully selected top brands, or has been exclusively designed for each villa and is thus unavailable on the open market.

Clear Views

Everything has been designed around the view. Not just the development as a whole, but each villa is orientated perfectly to maximise views. Inside each villa, nothing stands in the way of the view. Floor-to-ceiling windows slide back into the wall, to bring the living area out into the terrace. Window frames are very thin, so even when closed there is hardly any barrier between inside and out.

Word Class Design

Open Plan: no walls dividing the communal living spaces
Large Terraces: with different areas for sunbathing, dining and relaxing.
Ample gardens: all gardens are big enough for vegetable plots, if so desired.
True Infinity Pools: the view from the pool is of the sea and nothing in between.
Bespoke Spaces: areas for entertainment rooms, gyms and offices.

Overview of Lake Club and facilities

REAL DE LA QUINTA

The El Lago Club is destined to become the largest leisure complex associated with a residential resort on the Costa del Sol.

The Golf Course will be a flexible playing course made up of 6 holes (one par 5, three par 4s and two par 3s), which will also have various configurations of tees and/or pin positions, such that it offers the possibility of playing a complete course of 18 holes.

The unique Health & Wellness centre will be run by Le Max Club and have a 420 metre-squared fitness area, zones for bikram yoga, inferno hot pilates, cycling and running, a 200 metre-squared spa with Jacuzzi, heated pool, sauna, hammam, sensation showers; as well as sports and beauty treatments.

SUSTAINABLE LIVING

Homes that have a low carbon footprint and minimal impact on the environment.

BREEAM[®] ES The development is in the process of obtaining BREEAM certification, which aims to improve the level of building sustainability by promoting the best practices and technologies available on the market. In fact, Real de La Quinta, in which the villas are located, was the first urban development project in Spain certified by BREEAM.

During the certification process the design of each villa is audited by independent experts to ensure that it meets the quality and performance standards of the scheme in the following areas:

- Energy Efficiency
- Health and Wellbeing
- Innovation
- Land Use
- Materials
- Management
- Pollution
- Transport
- Waste
- Water Use

THE PLOT

Generous, individual plots and carefully thought-out orientation of each villa ensures uninterrupted sea views and complete privacy.

- GREEN AREA PLOTS
- GARDEN PLOTS
- GREEN AREA BETWEEN PAVEMENT AND ROAD
- PRIVATE ROAD
- PAVEMENT

LARGE POOLS

All villas have generous pools, starting at 56 m² and going up to 116 m²

LIVING SPACES

There is a contemporary style to suit everyone's taste, from bold and bright, to elegant and classical.

LIVING SPACES

The design philosophy is to devote as much thought, time and innovation to the interior of the houses as the exteriors.

The domotics and general illumination is world-class, making each house a truly smart home.

LIVING SPACES

All the furniture is either top brand names, or designed exclusively for each villa.

Each of the 18 villas has been designed to take maximum advantage of the elevation, orientation and natural light.

KITCHENS

Kitchens are what you would describe as luxury minimalist. Custom-made for each villa they have luxury finishes and top level appliances.

KITCHENS

SLEEPING SPACES

Bedrooms have been designed as retreats, intimate spaces to recharge body and soul.

Master bedrooms are luxury suites designed to 5-star hotel standards

There is no area of any of the 18 villas that has not been meticulously thought about, analysed and designed accordingly.
